About us

Why Fidget Cable?

We All Use Data/Charging Cables Every Day. Over The Years We Became Fed Up With Untidy Tangled Wires That Always Looked A Mess.

We Decided To Make A Better Cable, One That Would Not Look Untidy In Our Bags, Drawers On Or Our Desks. We Wanted A Tidy Cable To Keep In The Car That Would Not Get Trapped Between The Seats Or Look Gross Against Our Car's Dashboard.

We Hated The Way That Cables Keep Breaking – And Always At The Wrong Time.

We Decided To Build A More Durable Cable Than The Ones That You Get With Your Mobile Phone Or Other Devices.

We Absolutely Love Magnets! Early In The Design Process, We Realised That Magnets Could Help Solve Our Data/Charging Cable Needs And Everybody Knows How Much Fun Magnets Are To Play With!

We Are A Young Innovative Company With Lots Of Ideas To Make Today's Connected Life Better. Our Fidget Cable Is An Excellent Example Of How We Can Make Life Better In Small, But Fun, Ways!
